Information

How It Works

The Dental Program offered is administered by Premier Access Insurance Company, a national carrier and widely accepted dental plan.

What is important to know about your dental plan is that you may see any dentist. Although there are PCN (Premier Choice Network) and PPO provider lists available, and the benefits are enhanced if you elect to use either network, you may elect to see the dentist of your choice without penalty. Using the PCN or PPO providers, you maximize your benefits and reduce your out-of-pocket costs.

The PPO dentists offer discounted care (about 30%) and the plan pays a higher level of benefit when using an in-network provider. Additionally, the PCN/PPO dentist cannot "balance bill" you for amounts greater than the contracted rate.

Out-of-State Network & Claims

The MVPPO/Connection Dental network is available to eligible members outside the State of California. The provider listing is available on the Internet at: www.mvppo.com. It is important that you confirm with your dentist at the time of treatment that they are participating in the Connection Dental network. For a dentist near you call 800.952.5277.

Please check your Certificate of Insurance for a description of coverage, limitations and exclusions under your plan. Some services require prior authorization.

Note: Connection Dental is not available to all members. Please contact member services at 888.715.0760 to verify if your group is MVPPO eligible.

* Allowed charge limited to UCR. Payment of Covered Services and Supplies received from Non-Network Providers will be paid to the Provider.

** 100% FAMILY Orthodontia is ONLY available at either the North or Carmichael ACCESS DENTAL office locations.
